

CROP CONDITIONS IN KENTUCKY ARE ABOVE AVERAGE

State and Federal Crop Report Shows Conditions of Fruit, Grain and Hay, Much Better Than for the Ten Year Average.

General crop conditions in Kentucky are shown to be 11.6 per cent. above the ten-year-average, in the June crop report for this state issued Tuesday by the United States Bureau of Markets and Crop Estimates in co-operation with State Commissioner of Agriculture W. C. Hanna. The condition of crops in Kentucky June 1 indicated production of approximately 8,644,000 bushels of wheat; 6,560,000 bushels of oats; 176,000 bushels of barley; 239,000 bushels of rye; 1,222,000 tons of hay; 3,943,000 bushels of apples; and 1,102,000 bushels of peaches. Compared with 1921 this would be an increase of 2,304,000 bushels of wheat; 983,000 bushels of oats; 32,000 bushels of barley; 59,000 bushels of rye; 95,000 tons of hay; 3,307,000 bushels of apples; and 1,022,000 bushels of peaches. Actual yields may turn out less or more than these estimates, depending on whether conditions are particularly favorable or unfavorable between now and the time these crops are harvested or gathered. Reports on acreage and condition of tobacco and corn will be issued July 12.

The Kentucky wheat crop this season in practically every part of the state gave promise of being one of the best in recent years, but as it began filling considerable red rust developed, and there was some complaint of poor filling and of lodging. Condition June 1 was 93 per cent. compared to the ten-year average of 82 per cent. Acreage of oats is eight per cent. less than 1921, with condition June 1 90 per cent. compared to the ten-year average of 84 per cent. Barley acreage in Kentucky is about two per cent. more than in 1921, and the condition June 1 96 per cent. compared to the ten-year average of 90 per cent. Hay, of all kinds, was 90 per cent. compared to the ten-year average of 82 per cent. Clover hay acreage is 5 per cent. greater than in 1921 and the condition 94 compared to the ten-year average of 85 per cent. Alfalfa condition is 96 per cent. and the acreage 6 per cent. more than in 1921. Pasture is excellent in practically all sections of the state; and a heavy blue grass seed crop has been stripped, about 650,000 bushels. Hemp acreage is exceedingly small this year. Condition of apples is 70 per cent.; peaches, 82 per cent.; pears 64, field peas and beans 90, cabbage 91, onions 92, blackberries 97, watermelons 86, and muskmellons and canteloupes 87 per cent.

ANNOUNCEMENT.

I am now ready to do any kind of painting or paper hanging. Let me make you an estimate on any painting or papering you wish done.

Do you know that extensive exposure tests conducted under careful scientific directions have proven the greater durability and protective qualities of a paint prepared with White Lead alone shows early tendency to chalk off the surface, decreasing in decorative and protective qualities as the chalking progresses. The addition of zinc oxide with its hardening properties prevents early chalking of the lead and gives a much more durable paint.

I mix zinc oxide in my paint with expert skill.

Commissioners Grant Use of Court House Yard to Local Churches for Union Services During Summer.

Plans are being made by representatives of the various local protestant churches to hold union services in the open each Sunday evening during the summer vacation season beginning with the first Sunday evening in July. The Mason Fiscal Court Tuesday granted to the churches the right to use the court house yard facing Sutton street and west of the County Clerk's office for this purpose. It is the plan of the committee in charge to erect a platform along the curbing in Sutton street and build seats on the court house lawn. Although all plans have not been completed, the local pastors will alternate in having charge of the service.

Such an open-air summer series of services should be well attended and should do much good.

CHILDREN'S DAY TO BE OBSERVED ON NEXT SUNDAY

Live Sunday School of Third Street M. E. Church Announces Splendid Program for Next Sunday Celebrating Children's Day.

The fiftieth anniversary of Children's Day will be celebrated by the Sunday school of Third Street M. E. church next Sunday with the special program "The Road to the Golden Age" by Prof. H. Augustine Smith. This is the official program of the Methodist Episcopal church and one of the best ever gotten out for Children's Day. The author, Prof. Smith, of the department of fine arts, at Boston University, has the reputation of being one of the foremost musical editors and pageant writers of the age. He was director of music for the World's Christian Endeavor Convention in Chicago, 1915; and for the World's Sunday School Convention in Tokyo, Japan, 1920. At present among other duties he is director of music, pageantry and visualization at Chautauqua, N. Y. So a program gotten out by such a man is worthy of consideration. While not of great length the service is one of devotion, praise and instruction. The public is invited to come at 7:30 p. m. Sunday and hear this service. The program:

Musical Prelude.
Processional—"For Peace and Plenty." Children's Department.
Responsive Service—With antiphonal singing and ascriptions of praise.

Announcements.
Offering.—Offering is for the Student Loan Fund, a fifty-year-old institution of the Methodist Episcopal church. An average of 2,000 students helped a year.

Group of recitations and exercises by the little folks.

Part Two—"The Gateway to College."
College Gate—Heralds: Wisdom, Messengers of Light, High School Graduates.

"The Challenge to the College Man" Service of Consolation—Leader, Choir, High School Group.
The New Earth.

Closing Hymn—"From Age to Age They Gather."
Benediction and Postlude.

It will be seen that this is an entirely different program from that usually given by this school. However, those in charge feel that those who attend will agree that it is one of helpfulness, inspiration and real instruction. It will cultivate a desire for better things.

RETURNS DEATH BENEFIT TO JUNIOR ORDER

Maysville Man Wins His Property to Ashland Woman—Returns Death Benefit of \$500 to Order.

A paper bearing date of June 1, 1920, and purporting to be the last will and testament of Charles J. McKibben, who died several weeks ago at the City Alms House, was filed in the Mason County Court Wednesday. The due execution of the paper was proven by the testimony of Rose Murphy and Mae Mackey attesting witnesses thereto and admitted to probate.

In the will, the deceased set out that he had already paid for his funeral expenses and then willed all of his property to Louise Williams, of Ashland, a relative.

The last paragraph of the will is quite unusual. It says: "At my death there will be due me from the Junior order, the sum of \$500, but it is my wish and desire, as they have been most good to me, that said amount in full go back to said order."

The Bank of Maysville was named administrator with will annexed and it qualified with its capital stock, as surety.

SCHEDULE CHANGE TO BE DISCUSSED AT LEAGUE MEETING

Officials of Bluegrass League to Hold Meeting Wednesday Evening at Lexington to Discuss the Probable Change to 4 Games a Week.

A great deal of discussion probably will be one of the results of the meeting of representatives of Bluegrass League teams to be held at Phoenix hotel, Lexington Wednesday night. The proposition of changing the present schedule of two games a week to four games a week has brought forth a dozen different plans of shifting from one program to another.

Whether the solons of the league will come to any definite conclusions at tonight's session is not known, but it is understood that President Thos. M. Russell expects to keep things happening at a lively rate. Mr. Russell, who has expressed it as his opinion several times that the change would be made by June 15, has kept closely in touch with the management of every club, and is confident that there will be no delay in making the change.

One of the plans advanced is that the present schedule be discontinued immediately, and the new one taken up. Some insist that 25 games of present schedule be played off at the rate of four days a week, before the new schedule is begun.

The salary limit, too, probably would be changed considerably, and this is expected to bring forth a discussion of large proportions. The salary limit of the league is now \$50 per club per month.

Games probably will be played on Thursday, Friday, Saturday and Sunday, or possibly on Tuesday instead of Thursday.

Just about the newest thing in TUB PROCKS are the FATINES. The sports vogue accounts for some of their popularity—they are splendid for knockabout wear—but they are exceedingly smart just of themselves. They are certainly swaggar, especially in high shades, like temple orange. Many of these Procks are two piece affairs—they have matching capes.
